

SCC (THE SOUTH CANYON COALITION)

FROM: The South Canyon Coalition (aka: friends of South Canyon)

WHERE: Glenwood Springs, Colorado

WHAT: There is an incredible area owned by the City of Glenwood Springs about 4 miles west of town. It contains some wonderful features including a significant hot springs, historical mining sites, and a valuable wildlife habitat. The 'City' owns nearly 3,000 acres of this incredible land.

THE DILEMMA: The 'City' may hand over some of the more valuable parts of this property to a private developer.

OUR MISSION: Of this 3,000 acres, we are currently trying to convince the City Council of Glenwood Springs to conserve and to dedicate 415 acres of the valley floor area as "protected open space".

HOW YOU CAN HELP: If you believe in our cause, we would like to use 'the name of your organization' as a supporter of our mission. We feel this will be an effective means of showing our 'city council' that many of our open space and conservation constituents agree with our open space initiative.

LET US KNOW: If you would like to help, please print your organization's name and sign below, then e-mail back to Tye Richardson at 'DARYLTYE55@gmail.com' If you have further questions, you can contact me at 970.945.0346

Thank you,

Tye Richardson (SCC, executive officer)
