

Patch Burn Grazing Workshop

July 10-11, 2018

Semi-arid Grasslands Research Center
14698 CR 114 Nunn, Colorado

What's important about prescribed burning in the shortgrass prairie? Join us at the Semi-arid Grasslands Research Center to learn more about the why and how of prescribed burning in this semi-arid ecosystem. Researchers, managers, and ranchers will share their insights and we'll discuss challenges and opportunities for using fire in the shortgrass prairie.

Register (\$45) here: <https://www.eventbrite.com/e/patch-burn-grazing-meeting-tickets-46542187937>

- Classroom sessions in the morning and then field trips for the afternoons both days to Pawnee National Grassland.
- Continuing education credits offered for the Society for Range Management = 8 CPRM.
