

COLORADO

Parks and Wildlife

Department of Natural Resources

Temporary Job Announcement

POSITION: Resource Stewardship Program Biological Intern

START & END DATE: **START:** July 2018

END: September 30, 2018 - with possible extension funding permitting

PAY RATE: \$12.50-15/hour commensurate with experience

LOCATION: 6060 Broadway, Denver, CO 80216

DEADLINE FOR APPLICATIONS: May 8, 2019

JOB DESCRIPTION:

Colorado Parks and Wildlife's Resource Stewardship Program seeks to fill an entry-level natural resource position available for 40 hours per week based in north Denver. This position provides a great entrance into the working worlds of Conservation Biology, Public Land Management, Citizen Science and GIS in the beautiful state of Colorado.

DUTIES: This position's responsibilities will primarily include citizen science program development and management. Duties will include field work implementing citizen science projects, using and training others to use the iNaturalist phone app, as well as assistance with map production, data management, biological research, training & education materials, site visits, volunteer management, and administrative duties.

MINIMUM REQUIREMENTS:

Technician should have a background/education in recreation, volunteer management, ecology, wildlife, botany, natural resources, GIS, or other mapping or resource sciences. Good organizational skills, good written and oral communication skills, and the ability to work with autonomy are required. Experience with using the iNaturalist phone app is preferred.

An ideal candidate will have:

1. Working knowledge of the iNaturalist citizen science phone app.
2. Knowledge of the biology of wildlife and vegetation.
3. Knowledge of the conservation and recreation industries in Colorado.
4. Experience working with and managing volunteers.
5. Strong work ethic, be organized and have the ability to work in a fast paced setting both independently and in groups.

6. Ability to communicate information clearly and concisely, develop reports and present information both orally and in writing.
7. Willingness to perform overnight field work in state parks across Colorado.
8. Must have (or obtain) a Colorado Driver's license.

This position provides a good opportunity to gain experience in citizen science biological data collection, GIS, species management, and conservation in a practical real world setting. For more info on CO Parks and Wildlife - please see - www.cpw.state.co.us.

Currently, temporary employees of the state of Colorado are not eligible for health benefits. Employees are eligible to contribute to a 401k program and the state PERA retirement fund.

HOW TO APPLY:

Please submit a 1. Cover letter, 2. Resume (please include contact information for previous employers), 3. Professional References (3 minimum), to Jeff Thompson (jeff.thompson@state.co.us) in the CPW Resource Stewardship Program by **May 8, 2019**, but applications will be reviewed and considered as they arrive. Please email materials as PDF documents in order to be considered. Due to a short timeline for filling this position, local applicants are preferred.
