Denver County Extension Director

#48-23 Extension County Director,
Denver

Lead the state's only all urban serving extension office. We seek applicants from diverse backgrounds that can lead, innovate, and build partnerships in the areas of youth development, horticulture, and community engagement. A hybrid work environment, talented teammates, and impactful outcomes make this a dream job!

Additionally, as a CSU Extension non tenure track faculty member, you get amazing leave and medical benefits, regular access to education and professional development, as well as a supportive team of statewide colleagues.

If you have the following, we invite you to learn more!

- An understanding of Denver or other urban communities and their needs?
- An ability to lead an amazing team and office?
- A drive to innovate and experiment?
- Strong ability to partner and produce results?

Denver Extension Office

This extension office is in Denver's gorgeous Harvard Gulch Park. The team is focused on youth development through school enrichment and out of school programming. As well as increasing access to healthy food, and empowering local communities.

Work with a team of 6 highly trained in administrative support, finance, volunteer management, food access, youth development, horticulture, and social justice. This team knows the people, places, and resources in Denver.

Lead the innovation and impact of this team with your skills and passion.

Partner with CSU Spur

CSU Spur is a free educational destination in Denver with a focus on food, water, and health through research and innovation. The director will continue to build a powerful partnership with Spur for the benefit of Denver communities.
