

**DENVER**  
THE MILE HIGH CITY

# **RADAR & LIDAR Instructor Certification**

**September 15–19, 2025**

instructed by

**Law Enforcement Services, LLC**

sponsored by

**Denver Parks & Recreation**

class location

**Montclair Recreation Center**

**729 Ulster Way**

**Denver, CO 80206**

**This 40-hour National Highway Traffic Safety Administration and Multi-State Peace Officer Standards & Training Certified Course instructs and certifies police officers as RADAR & LIDAR Instructors. Registration fee is \$325 per officer.**

**To register contact:**

**Les Langford, Email: [lawenforceser@aol.com](mailto:lawenforceser@aol.com), cell: 801-319-4192**

**Student Prerequisites:** Prior experience operating radar and/or lidar and department support.

**Required Equipment:** Basic scientific calculator capable of trigonometric functions. (Texas Instrument TI-30X SOLAR works the best, requires no batteries and costs less than \$20.00.) Yellow highlighter marker. (Used to highlight important portions of the student manual.) Please bring the manufacturer's operators manual for your department issued radar and lidar.

**Classroom Presentation:** Each officer will be required to make a short presentation before the entire class covering a topic located in **Understanding Police Traffic RADAR & LIDAR**.

**Handouts:** All officers will receive the book **Understanding Police Traffic RADAR & LIDAR** written by the instructor. This 200 page training manual is continually updated with the latest in radar and lidar technology and case law. Officers will also receive **Understanding Police Traffic RADAR & LIDAR Instructor flashdrive**, containing 602 slides, 59 videos and 30 audio clips and closely follows the student manual. Instructors also receive **Understanding Police Traffic RADAR & LIDAR Final Exam**.

**Instructor:** Les Langford served with the Utah Highway Patrol for 30 years and supervised the UHP and Utah Peace Officer Standards & Training speed measuring training program for 8 years. As owner of Law Enforcement Services, LLC, he has trained and certified police officers as basic operators and certified instructors in all makes and models of radar, lidar, vascar, and various other time-distance speed measuring devices throughout the United States and Canada for the past 23 years.
